Title: Good Quality, Great Looking

Product Reviews

Comments: Fast delivery and really high quality out of the package. But after wearing them ONCE, the button thread started unraveling. So now I need to find the correct thread to sew them on correctly. Size fits nicely after determining the correct one. Buttons should be sewn on better. You must snap the inside button on the fly as well in order for it to be "flat" under the belt buckle, otherwise the fly opens up near the buckle even when the outside buttons are in place.

Title: Delivery @ the Speed of Light!

Comments: I ordered these pants on a Friday and took them to the tailor when I received them the following Wednesday! Even coming from UAE was Priority Mail fast! Does Jerry have a Star Trek transporter out there in the desert?? As others have said, the pants run a bit snug- I wear just a tad over 40", and these pants were 42. They fit, but I went ahead and had the tailor take 3/4" in at waist- that was the max allowable by the selvage in the rear seam. Now they fit very comfortably, and look really sharp! I docent at an air museum, and wear these pants with my WPG khaki poplin shirt, khaki service cap, and A-2 with painted-on squadron patch. Since winter is on the way, my next WPG purchase will be an OD dark shade shirt. WPG is my go-to for everything I need!

Title: US Army Officer Pink Shade Trousers

Product Reviews

Comments: I recently purchased a set of "Pinks and Greens" Class A Uniform from WPG. This review is for the Officer's Pink Shade Trousers Only. The Trousers arrived separately from the Jacket as it had been shipped from a different warehouse. They arrived quickly, which I have come to expect with WPG Shipping. They get your order out very quickly. Upon receiving the trousers, I noted the trousers were in a clear plastic bag marked "38", a paper stick on tag marked "38" was stuck to the waist button, and the tag inside the trouser waistband was also marked "38 which is what I had ordered. I ordered a 38 which is a bit larger than the 36 I normally wear so I could have them tailored. When I tried the trousers on, they fit like painted on jeans and the waist was more like a 34. I immediately contacted WPG customer service and they responded quickly within an hour, sending me an RMA number so I could return the trousers for a refund rather than play musical trousers. The trousers were well made and hemmed to a 35 length I believe. The material matched the Elastique pink shade trousers issued during WWII nearly perfectly. I wish they had fit properly as they were very well made. I'll definitely order WPG in the future. They have a customer service dept that is second to none.

Title: Officer Pink trousers

Product Reviews

Comments: Very good quality BUT they do not fit / size 38 waist IS NOT 38 / Inseam is too tight, they ride low on the hips and not high as WW2 officer's trousers should / disappointed is too mild a word / I've asked for a larger size to see if they just run small / the 38 inch waist chocolate officer's trousers I purchased previously fit to a T and look great, perfect in every respect. The Pinks just are cut exceptionally small and tight/ I would judge the trousers, marked 38 waist, to be a true 35 inch waist. They ride so low My Ike jacket sits 3 inches above the trousers and that is certainly not flattering.

Title: Great Reproduction

Comments: These are extremely heavy, very well-made reproduction pinks. The cut is very authentic and the material and color is spot on. I was surprised to find that they were hemmed, but I will be having mine tailored anyway, so re-hemming them won't be an issue. All in all, a great reproduction. And as usual, lightning fast shipping.

Title: great pants

Comments: Very heavy high quality pinks, well tailored and have suspender buttons too. I had mine tailored up a bit in the hips to make sure they stayed up high as they should when worn without suspenders, which you can only do if worn with the coat. Watch pocket is too deep but can either be shortened or put a nice long fob on your watch. The material is very thick as it should be, so your laundryman should steam press the fly down really well. Button flies often have that problem, being a bit thick compared to a zipper fly. Remember when you have the hem set in the legs to tell the guy not to put a break in them. Military pants are always very straight with NO break at the ankle. I would like a pair that are lined with Bemberg satin because these are scratchy, especially if worn in warmer weather. A good seamster could add that. Private purchase pinks sometimes had a lining to make them more comfortable year round.

Product Reviews

Comments: the officer pinks are cut with fine tailoring. Something I learn from past orders is to order one size lager. Does this mean W.P.G is putting the wrong sizes on there pants? no. people wore there pants higher than they do today.They don't fit like a pare of modern day Levis.If you got a old pare of levis they would seem smaller than todays.Just the way they made cloths before the 60s. so don't say I wear size 38 and thats it. You buy period clothing anywhere you had best order larger.They can always be taken up .I don't let my vanity get in the way of a good parr of pants

Product Reviews

Comments: IMHO, as the son of a dry cleaner who worked in his fathers' cleaning store for many years in Manhattan I've never encountered such well made clothes even with finer material. These pants were ostensibly put together by some very skilled and dedicated tailors. Its also quite obvious that careful research and planning went into obtaining the right fabrics and material with just the right patina on these woolen pants. The fact that they arrive unhemmed is to the customers advantage. Everyone has the opportunity to get them custom finished to just the right length for them. Jerry, you are awesome. Now if everything I said wasn't enough, how about the delivery time. I ordered them on a Sunday and received them on Wednesday from the Middle East! Very impressive service any way you look at it. Thanks! and Thanks Again!

Title: Good pants

Comments: On the plus side. The wool is very nice and the fit is also good whit a very high waist. On the down side. The stitching is rather sloppy. Some seams even look like i made them myself (that's a bad thing). Also the satin cloth used to line the pants feels flimsy.

Title: Great Repro

Comments: Overall: 5/5 stars. Quality: 4.5/5 stars. For color and cut these trousers are the closest repro Pinks I've seen. Full cut throughout. Fly buttons are a little too close to the edge and the flap button needs to be moved a bit, but that's a minor criticism. Bottom line, great trousers. Delivery: 5/5 stars. 3 days from UAE to USA. Wow!

Title: Buy three pair. Bardzo Dobrze....

Comments: Jolly good pair of trousers. Buy two or three. They are worth every schilling. Buy the Officer's Breeches too. Same Cavalry twill. El Excellenté. Good high rise, acceptably sewn. Critique: Brace buttons far too close together, and top button fly button forces a man do a rather unnatural contortion button it when he in a bind. Top button aught be button through as the Breeches or same as the other fly buttons. No problem for any tailor worth his salt. A little extra flare in the hips wouldn't hurt either.

Title: so impressed

Comments: Okay, I bought a pair of the "Pinks" to complete an Indy costume for halloween, but was so impressed with the trousers I plan to buy another pair! Like the Indy shirts, these pants are constructed the way pants used to be made. (I was blown away by the satin patch covering the inside crotch seem. I haven't seen pants made that way in forty years!) I was surprised at how comfortable these pants were. Normally, I don't like to wear wool or wool blends because they itch. But, I found I had no problems with the "Pinks". The material seemed heavy, but breathed well and were cooler than I expected. The fabric also seems tough enough to survive the high desert, where I live. I wish WPG offered a hemming service (for a fee), but don't feel that lack of hemming is a deal killer. (I was able to find a Marine Corp Vet and his wife who run an alterations shop, and they did a wonderful job with the hemming.) Keep it up WPG, you have another winner!
